

**SEPTEMBER 11th 2019**

8:30-12:30 a.m.

**MASTERCLASS ROBOTIC SURGERY**

**AULA A**

Chairman: **H. Steyaert, H. Lardy**

- 8:30 a.m. Registration
- 9:00 a.m. Tips and Tricks in installation and docking  
**T. Blanc, H. Lardy**
- 9:30 a.m. Learning curve in robotic surgery: really shorter?  
**I. Kassite**
- 10:00 a.m. Applications of fluorescence imaging using indocyanine green  
**M. Escolino**
- 10:30 a.m. Coffee Break
- 11:00 a.m. Hybrid operating room; how a radiologist can help a surgeon  
**M. Laureis**
- 11:30 a.m. Augmented reality and laparoscopy: the digital revolution in the OR!  
**N. Bourdell**

12:00 a.m. Italian Robotic Experience. Results of an Italian Multicentric Survey  
**M. Lima**

12:30 a.m. Training on virtual robotic station

8:30-12:00 a.m.

**MASTER CLASS OF MIS IN PEDIATRIC UROLOGY - Evidence based results after 25 years of mis in pediatric urology**

**AULA B**

Chairman: **C. Esposito, F. Varlet**

8:30 a.m. Upper Urinary Tract  
Evidence based medicine on the minimally invasive surgical management of uretero pelvic junction obstruction (UPJO)  
**P. Szavay**

9:00 a.m. Upper Urinary Tract  
Laparoscopic treatment of renal cancer in children, review of oncologic and surgical complications  
**F. Varlet**

9:30 a.m. Lower Urinary Tract  
Long term results of MIS management of vesico ureteral reflux (VUR) and analysis of postoperative bladder dysfunction after laparoscopic and robotic extravesical ureteral reimplantation in children  
**C. Esposito**

10:00 a.m. Coffee Break

10:30 a.m. Lower Urinary Tract  
Evidence based results on the endoscopic treatment of urinary stones  
**P. Caione**

- 11:00 a.m. Lower Urinary Tract  
Long-term outcomes in primary obstructive megaureter (POM) treated by endoscopic balloon dilation  
**J. M. Angulo**
- 11:30 a.m. Lower Urinary Tract  
Current surgical practice about the management of ureterocele in single and duplex system  
**H. Till**
- 12:00 a.m. Presentation of complicated and difficult cases.  
**Faculty**

08.30 a.m. – 01.15 p.m.

**AULA C**

WORKSHOP IN PEDIATRIC MIS: ELECTROSURGICAL TECHNIQUES, VASCULAR SEALING AND MECHANICAL SUTURES IN PEDIATRIC LAPAROSCOPIC SURGERY

Chairman: **I. Draghici, A. Pini Prato**

- 8:30 a.m. Modern dissection and hemostasis techniques in pediatric laparoscopic surgery - advantages and indications  
**I. Draghici**
- 8:45 a.m. Monopolar hook cautery  
**J. Babala**
- 9:00 a.m. LigaSure, ENSEAL (vessel-sealing systems) - principles and indications of the sealing of the vascularpedicles  
**A. Pini Prato**
- 9:15 a.m. UltrasonicScalpels (Lotus, Harmonic) - benefits in laparoscopic dissection  
**E. Van Der Veken**

- 9:30 a.m. MIS of parenchymalorgans (hepatectomy, splenectomy, thymectomy etc.)  
**J. Breaud**
- 9:45 a.m. Techniques of laparoscopic mechanical sutures in pediatric surgery - linear, circularstaples  
**M. Mendoza Sagaon**
- 10:00 a.m. Laparoscopic appendectomy with linear stapler - cost / benefit ratio  
**P. Montupet**
- 10:15 a.m. The technique of laparoscopic intestinal resection  
**V. Di Benedetto**
- 10:30 a.m. Coffee –break
- 11:00 a.m. Practical part
- 01:15 p.m. Discussions, conclusions, distribution of certificates
- 01:30 p.m. **NATIONAL SOCIETY MEETING**  
SIVI (Italian)  
Geci( France)  
BAPES (UK)  
BELAPS (Belgium-Luxembourg)  
SPSG (Spanish)  
RSPLS (Romanian)

- 07:00 p.m. **OLYMPIC THEATRE VICENZA**  
(oldest cover theatre in the world, World heritage Site)
- OPENING CEREMONY**  
Greetings from the authorities
- 07:45 p.m. Concert with popularest songs of Ennio Morricone  
Maestro Giuliano Fracasso choir and Orchestra Director
- 08:00 p.m. Welcome cocktail at the Palladian Basilic

## THURSDAY 12th SEPTEMBER

<b>Session I 8:00-9:00 am</b> <b>GASTROINTESTINAL</b> <i>Cheli M (ITA) De-Diego Suarez M (SPA)</i>	
<b>Daya Ram A.</b>	Experience and Learning Points in the Management of Achalasia Cardia in Children
<b>Demirel D.</b>	Can laparoscopy-assisted percutaneous endoscopic gastrostomy (PEG) prevent majorgastrostomy complications?
<b>Diez O.H.</b>	How to treat chemical burns of the esophagus? - experiences with the Home Catheter Ballon Dilatation as an effective method for treatment
<b>Lindeboom M.</b>	Long-term outcome of preserving the native esophagus in long gap oesophageal atresia by thoracoscopic traction technique
<b>Tarallo L.</b>	Acute gastric volvulus in children: our experience in management and laparoscopic gastropexy

<b>Soliman M.</b>	The effect of Laparoscopic sleeve gastrectomy in treatment of type 2 Diabetes Mellitus in children and adolescents.
<b>Lebet M.</b>	Laparoscopic versus open pyloromyotomy. Our experience.
<b>Sheir H.</b>	Laparoscopic Versus Open Pyloromyotomy in Treatment of Infantile Hypertrophic Pyloric Stenosis
<b>Destro F.</b>	Mininvasive management of Hypertrophic Pyloric Stenosis : a 10 years single center review.
<b>Session II 9:00-10:00 am</b> <b>UROLOGY</b> <i>Shehata S (Egypt) - Paul Philippe (Luxembourg)</i>	
<b>Elsherbiny M.</b>	Laparoscopic two stage fowler_stephen orchiopey (FSO) versus laparoscopic staged traction orchiopey (SLTO) in treatment of intra-abdominal testis in pediatrics
<b>Wolak P.</b>	Analysis of the volume change of the testis after inguinal hernia repair using the PIRS method - pilot study.
<b>Midrio P.</b>	Anesthesiologic and analgic aspects of infants undergoing laparoscopic inguinal hernia repair
<b>Caione P.</b>	A new device for mini-perc in pediatric renal stone treatment
<b>Halinski A.</b>	Comparation of treatment methods for stone in lower calyx in children with flexible uretereoscopy and microperc - prospective study
<b>Tokar B.</b>	Indications and Pitfalls of Laparoscopic or Laparoscopy-Assisted Urinary System Stone Removal
<b>Mele E.</b>	Endourological treatment of primary obstructive megaureter: ten year experience.
<b>Varlet F.</b>	Laparoscopic litch-gregoir reimplantation in day-case surgery for the treatment of high-grade unilateral vesico-ureteral reflux in children
<b>David V.</b>	Laparoscopic two stage spermatic vessels sparing procedure for intra-abdominal undescended testis

<b>Session III 10:00-11:00 am</b> <b>GASTROINTESTINAL</b> <i>Metzelder M (AUT) - Tokar B (TUR)</i>	
<b>Soroutchan V.</b>	MIS endoscopic treatment for gastric output obstruction.
<b>Andreetta M.</b>	Minimally invasive surgery (mis) versus open surgery (os) in newborns with congenital duodenal obstruction (cdo) and esophageal atresia (ea). Short term outcome comparative study.
<b>Pio L.</b>	Preliminary results of laparoscopic stapled duodeno-duodenostomy for duodenal atresia
<b>Maqbool B.</b>	Laparoscopic management of jejuno-ileal atresia. A systematic review and meta-analysis
<b>Bleve C.</b>	Long term follow-up and outcomes in laparoscopic duodenal atresia repair. Analysis of our experience.
<b>Mattioli G.</b>	Laparoscopic hepatico-duodenostomy associated with intraoperative flexible endoscopic check in the treatment of choledochal cyst: preliminary experience and technical details.
<b>Gusev A.</b>	Transrectal access in the surgical treatment of biliary atresia.
<b>Piolat C.</b>	Gallbladder duplication : timing and pitfalls of laparoscopic cholecystectomy in children.
<b>Centonze A.</b>	Unusual case of abdominal mass: endoscopic diagnosis of Rapunzel syndrome

<b>Session IV 11:00am -12:00pm</b> <b>GASTROINTESTINAL</b> <i>Cano I (SPA) - Piolat C (FRA)</i>	
<b>Pini Prato A.</b>	Minimally Invasive surgery for Hirschsprung patients with persistent postoperative obstructive symptoms
<b>Gfroerer S.</b>	Comparison of perioperative outcomes between laparoscopic and open partial splenectomy in children
<b>Talypov S.R.,</b>	Experience of minimally invasive surgery in children with neurogenic tumors of thoracoabdominal localization associated with IDRF.
<b>Bleve C</b>	Laparoscopic Hill Snow Repair for Physiologic GERD in our Centre. Long term follow-up.
<b>Jukić M.</b>	Comparison of inflammatory stress response between laparoscopic and open approach for pediatric inguinal hernia repair in children
<b>Bartoli F.</b>	Development in the surgical treatment of acute appendicitis: a single center experience.
<b>Borg C.</b>	Laparoscopic appendicectomy in children; current practice and future challenges in Malta. A preliminary report.
<b>Codrich D.</b>	Laparoscopic correction of a prenatally detected pouch colon type 2 malformation
<b>Session V 12:00-1:00 pm</b> <b>GASTROINTESTINAL</b> <i>Haddad M. (UK) - Moreira Pinto (Port)</i>	
<b>Özçakır E.</b>	The laparoscopic approach to the splenic cysts in children
<b>Gusev A.</b>	Pancreatic surgery in children
<b>Bulotta A.</b>	Laparoscopic Malone Appendicostomy in paediatric population: 2 centers long term follow-up
<b>Italiano F.</b>	Sigmoid volvulus in children and minimally invasive treatment

<b>S.Shehata</b>	Laparoscopic suture rectopexy and sigmoidopexy for resistant complete rectal prolapse in children
<b>Fourcade L.</b>	Laparoscopic appendectomies: medico-economic comparison for "in" and "out" techniques
<b>Avolio L.</b>	Effectiveness of tulaa for acute appendicite in children: a local experience compared with a meta-analysis
<b>Patanè S.</b>	Video-laparoscopic inguinal hernia repair: single centre experience
<b>1.00-1.15 pm PRESIDENTIAL ADDRESS</b>	
<b>Introduction:</b>	<b>I. Draghici (Rom)</b>
<b>President:</b>	<b>H. Steyert (Bel)</b>
<b>1.15-1.30 pm ESPES MANUAL OF PEDIATRIC MINIMALLY INVASIVE SURGERY PRESENTATION - C. Esposito (ITA)</b>	
<b>1.30-2.30 pm LUNCH</b>	

<b>2.30-3.00 pm ESPES KEYNOTE LECTURE</b>	
<b>Introduction</b>	<b>Mario Mendoza Sagaon (Switzerland)</b>
<b>C. Giné (Spain)</b>	<b>PRESENT AND FUTURE OF FETAL SURGERY</b>

<b>Session VI 3:00-3:45 pm</b>	
<b>THORAX</b>	
<i>Van Der Zee D. (the Netherlands) - Clarke S (UK)</i>	
<b>Mattioli G.</b>	Posterior tracheopexy for severe tracheomalacia: a new solution for an old problem?
<b>Patkowski D.</b>	Thoracoscopic multistage repair of long-gap esophageal atresia using internal traction suture technique – evolution of the method
<b>Pio L.</b>	Preliminary experience of laparoscopic collis gastroplasty and thoracoscopic esophageal anastomosis for type 1 esophageal atresia
<b>Rohleder S.</b>	Continuous suture technique for anastomosis in esophageal atresia and clip ligation of tracheo-esophageal fistula in newborns
<b>Rygl M.</b>	Thoracoscopic repair of H-type tracheoesophageal fistula
<b>Bogusz B.</b>	The application of percutaneous suturing technique in thoracoscopic repair of congenital diaphragmatic hernia
<b>Savu B.</b>	Utility of Fiber Bronchoscopy in the Management of a Neonate with VACTERL Anomalad
<b>Session VII 3:45 – 4:30 pm</b>	
<b>THORAX</b>	
<i>Gamba P.G. (ITA) - Fourcade Laurent (FRA)</i>	
<b>Said H.</b>	Unique Thoracoscopic Technique for Posterolateral triangle repair in Congenital Diaphragmatic Hernia; a Bi-central study
<b>Carvalho C.</b>	Primary focal hyperhidrosis in children: is surgical treatment a safe and effective option?
<b>Akl M.</b>	Thoracoscopic sympathectomy for treatment of primary hyperhidrosis in children: a randomized comparative study between clipping and electrocautery techniques
<b>Jokic R.</b>	Comparison between standard and thoracoscopic extrapleural modification of nuss procedure- two centers experience

<b>Mitupov Z.</b>	Thoracoscopic thymectomy in children by myasthenia gravis
<b>Nayak S.</b>	Bronchoscopic retrieval of Paediatric Tracheobronchial Foreign Body: A Challenge
<b>Tander B.</b>	Endoscopic stent application in a child with triple a syndrome and esophageal perforation
<b>4.30-5.30 pm ESPES-IPEG SESSION</b>	
<b>Emerging technologies and new frontiers in MIS</b>	
Chairmen	Esposito C. ESPES (ITA), Szavay P. IPEG (SW)
<b>Najmaldin A. (UK)</b>	Pediatric Robotics: Current and future
<b>Bagolan P. (ITA)</b>	Trends in Fetal Surgery today
<b>Angulo J.M.(SPA)</b>	Long term results of baloon dilatation to treat urinary pathologies in pediatric patients
<b>Becmeur F. (FRA)</b>	Virtual and Augmented Reality in Pediatric Surgery
<b>BREAK</b>	
<b>6.30 pm Departure from Teatro Comunale to Venice</b>	

**Friday 13th September 2019**

<b>Session VIII 8:00-9:00 am</b>	
<b>THORAX</b>	
<i>De Augustin J (SPA) Saxena A. (UK)</i>	
<b>Dokumcu Z.</b>	Bronchogenic and duplication cysts in children
<b>Di Salvo N.</b>	Is thoracoscopic lung-sparing surgery feasible for the treatment of congenital pulmonary airway malformations?
<b>Khen-Dunlop N.</b>	Thoracoscopic lobectomy versus sparing resection in congenital lung malformations
<b>Matos da Silva Maia R.</b>	Comparison between single- and double-lung ventilation with permissive hypercapnia in CPAM diagnosed infants undergoing thoracoscopic lung resection under 2 years of age.
<b>Macchini F.</b>	Thoracoscopic resection of congenital lung malformations (clm) in infants:intraoperative evaluation with cerebral and somatic near infrared spectroscopy (nirs) monitoring
<b>Demirel D.</b>	How important is the timing of thoracoscopy to provide early recovery in childhood empyema?
<b>Guanà R.</b>	Five-years experience in the thoracoscopic treatment of the oncological and malformative lung diseases: lessons learned and pitfalls.
<b>De Agustin J.</b>	Thoracoscopic pneumatocele ablation in an infant with respiratory insufficiency
<b>Zambaiti E.</b>	Minimally-invasive approach to complicated pneumonia in children: why don't we just put a tube?

<b>Session IX 9:00- 10:00 am</b> <b>MISCELLANEOUS</b> <i>Gusev A. (RUS) - Gfroerer S. (GER)</i>	
<b>Rahn C.</b>	Surgical simulation in Pediatric Surgery. Essential bases for surgeons-in-training in Minimal Invasive Surgery (MIS)
<b>Breaud J.</b>	The National Pediatric Surgery Simulation Program in France: A tool to develop resident training in pediatric surgery and pediatric laparoscopic training
<b>Carter H.</b>	Thoracoscopic Congenital Diaphragmatic Hernia Repair - An innovative cost effective model providing a training opportunity for Paediatric Surgery Trainees.
<b>Perez Etchepare E.</b>	200 Initial procedures with 5 mm working channel laparoscope
<b>Di Fabrizio D.</b>	Complications of robotic assisted laparoscopy in children: a prospective study
<b>Bawa M.</b>	Functional and radiological parameters to assess outcome of Endoscopic third ventriculostomy in shunt failure patients
<b>Barbosa-Sequeira J.</b>	Single-incision laparoscopic femoral hernia repair using a percutaneous internal ring suture-like technique in children
<b>Raboei E.</b>	Is Laparoscopic Percutaneous Internal Ring Suturing (PIRS) The Most Comparable Laparoscopic Technique to Open Herniotomy (OH)?
<b>Westwood E.</b>	Laparoscopic Repair of Incarcerated Inguinal Hernia: 15 Years of Experience in a Regional Paediatric Centre
<b>Balzas Fadgyas</b>	Laparoscopy in a Central European National Institute: results of the past 10 years focused on complications
<b>10.00-10.30 am. ESPES KEYNOTE LECTURE</b>	

<b>Roberto Mancini</b>	<b>How to create a winning team</b>
National Italian Soccer Team Coach	
<b>Session X 10.30-11.45 am</b> <b>INNOVATIONS &amp; ROBOTICS</b> <i>RicciptoniG. (ITA) – Soomen M. (NED)</i>	
<b>Angelico R.</b>	Succesfull use of mini-invasive approach in pediatic hepatobiliopancreatic surgery and in adult-to-child liver transplantation.
<b>Kassite I.</b>	Robot-assisted resection of choledochal cysts and hepaticojejunostomy in children : initial experience in 2 institutions
<b>Abdel Aziz M.</b>	Glove single port laparoscopic appendectomy versus conventional laparoscopic appendectomy in children and adolescents under spinal anesthesia; A randomized controlled study
<b>Escolino M.</b>	Indocyanine green (icg) fluorescence lymphography: a new technique to perform lymphatic sparing laparoscopic palomo varicocelectomy in children
<b>Korzeniowski P.</b>	Virtual Reality Trainer for Paediatic Laparoscopic Inguinal Hernia Repair - Face and Content Validation
<b>Morandi A.</b>	Fetoscopic repair of myelomeningocele: preliminary results from a single center
<b>Escolino M.</b>	Postoperative bladder dysfunction and outcomes after mis extravescical ureteral reimplantation in children using laparoscopic and robot-assisted approach. Results of a multicentric international survey.
<b>Torino G.</b>	Versatility of the robotic surgery for the treatment of complex bladder pathologies in pediatic age
<b>Musleh L.</b>	Feasibility of the robotic approach for pediatic lung lobectomy
<b>Marte A.</b>	Reliability of sutureless laparoscopic inguinal hernia repair in children. Our experience

<b>J. Babala</b>	Partial spleen resection preserving blood supply arising from left gastroepiploic vessels - video presentation of innovative method
<b>Scuderi M.G.</b>	Combined full-laparoscopic and robotic splenectomy-cholecystectomy with supra-pubic approach in pediatric patients
<b>ROUND TABLE</b>	<p style="text-align: center;"><b>11.45 am – 12.45 pm</b>  <b>ROUNTABLE “MIS ESOPHAGEAL REPLACEMENTS”</b>  <b>Chairmen: Montupet Ph (FRA), Van DerVeken E (BEL)</b></p> <p style="text-align: center;"><b>Bowel interposition (Colon,Ileum) O.Reinberg SWI</b>  <b>Esophageal pull up P. De Coppi UK</b>  <b>Other techniques( Gavriiliu ) A. Bonnard FRA</b>  <b>Transitional Feedings S. Amarri ITA</b></p>
<p><b>Session XI 12.45-1.30 pm</b>  <b>MISCELLANEOUS</b>  <i>Lopez M (SPA) - Correia Pinto J(PORT)</i></p>	
<b>Gambino M.</b>	Clinical and functional long-term outcomes of laparoscopic assisted anorectoplasty: a comparative study with posterior sagittal anorectoplasty
<b>Hatri F.</b>	Laparoscopic surgery or conventional surgery in the treatment of hydatid cyst of the liver, experience of a pediatric surgery service.
<b>Frybova B.</b>	Organ-preserving management of splenic cyst via laparoscopy: complications and doubts

<b>Draghici I.</b>	Limits of the laparoscopic approach for hydatid hepatic cysts
<b>La Pergola E.</b>	The use of staple technology for partial splenectomy in children: a single centre experience
<b>Kerkeni Y.</b>	Interest of laparoscopy in the diagnosis of peritoneal tuberculosis
<b>Allasia A.</b>	Endoscopic pilonidal sinus treatment in teenagers
<b>Gizewska-Kacprzak K.</b>	Laparoscopic advanced procedures in children after open repair of the gastrointestinal tract perforation with peritonitis - a case series
<b>1.30-2.30 pm LUNCH</b>	

<b>ROUND TABLE</b>	<p><b>2.30-3.30 pm</b>  <b>ROUND TABLE DEBATE: THORACOSCOPY</b>  Chairmen: Becmeur F (FRA) Patkowski D (POL)</p> <p><b>Lobectomy in CCAM (Rothemberg S. USA)</b>  <b>Segmentectomy When an Why (Van der Zee D., NL)</b>  <b>Robotic Lobectomy in Pediatric Patients (Dunlop, N.K. FRA)</b>  <b>Mediastinal Masses (Chiarenza SF ITA)</b></p>
--------------------	--

<b>Session XII 3:30 – 4:30 pm</b> <b>UROLOGY 2</b> <i>Baltogiannis N. (GRE) - Orkan E. (Turkey)</i>	
<b>Bucci V.</b>	Long term follow-up in laparoscopy vascular hitch for UPJ obstruction due to lower pole crossing vessels.
<b>Fernández B.</b>	Micropercutaneous endopyelotomy for recurrent pyeloureteral junction obstruction
<b>Paye Jaouen A.</b>	Laparoscopic ureterocalicostomy in children : think about it!
<b>Kaselas C.</b>	Post-operative complications after Lymph-Sparing Laparoscopic Palomo varicocelectomy in children and adolescents. First long-term report of a single tertiary center.
<b>Sforza S.</b>	Minilaparoscopic versus open pyeloplasty in children less than 1 year
<b>Stratulat I.</b>	Paediatric robotic versus open pyeloplasty: Is it less painfull and will I be discharged earlier?
<b>Braga I.I.</b>	The impact of blue dye injection in the morbidity of the laparoscopic treatment of varicocele
<b>Impellizzeri P.</b>	Laparoscopic Varicocelectomy in Adolescents: Artery Ligation or Artery Preservation? A systematic review and meta-analysis
<b>Spampinato G.</b>	Distal ureter preservation for Clean Intermittent Catheterization during mini-invasive nephrectomy
<b>Session XIII 4.30 – 5.30 pm</b> <b>INNOVATIONS, ROBOTICS, ONCOLOGY</b> <i>Pelizzo G. (ITA) – Alizai N. (UK)</i>	
<b>Casadio G.</b>	Laparoscopic excision of ganglioneuroma secreting dopamine: pre-surgical treatment and differential diagnosis with secreting paraganglioma / feocromocitoma
<b>Castro S.</b>	Laparoscopic adrenalectomy in children

<b>Costa A.</b>	Ovarian transposition as a minimally invasive preservation technique of fertility: ten years of experience in a paediatric tertiary centre.
<b>Moubarak A.</b>	Evaluation of Surgical Intervention in Venous Malformations among Children
<b>Moutaftchieva P.</b>	The role of minimally invasive surgical methods in the diagnosis and staging of pediatric tumors - a single-center experience
<b>Haraux E.</b>	Low-cost training simulator for laparoscopic inguinal hernia repair for boys: development and face validation
<b>Pelizzo G.</b>	Learning curve in mininvasive surgery: the functional brain activity studies to guide the training programs
<b>Lisi G.</b>	Surgical team satisfaction in robotic-assisted pediatric surgery / urology: a national survey
<b>Fusi G.</b>	Considerations regarding pain management and anesthesiological aspects in pediatric patients undergoing minimally invasive surgery: robotic vs laparoscopic-thoracoscopic approach
<b>5.30 – 6.30 pm ESPEES GENERAL ASSEMBLY</b>	
<b>CLOSING REMARKS</b>	

**POSTER SESSION**  
**THURSDAY 12th SEPTEMBER 2019**

<b>Session I 10.00-11.00 am</b> <b>GASTROINTESTINAL</b> <i>Matthysens L (BEL) - Stoica A (ROM)</i>	
<b>A. Elsaied</b>	Laparoscopic Pancreatectomy for Hyperinsulinemic Hypoglycemia of Infancy. Mansoura Experience in four cases
<b>A.A. Scarpa</b>	Laparoscopic subtotal cystectomy as primary treatment for large non-parasitic splenic cysts
<b>A. Gusev</b>	Rare clinical case of portal vein aneurysm in the child with cirrhosis
<b>A. M. Caruso</b>	High resolution manometry guidance during laparoscopic antireflux surgery in children
<b>A. Marte</b>	Laparoscopic approach for treatment of primary splenic cyst .Case report and review of the literature
<b>B. Tokar</b>	Laparoscopic Malone Antegrade Colonic Enema Procedure in a Patient with Intestinal Malrotation and Persistent Cloaca

<b>C. PIOLAT</b>	Dumping syndrome following fundoplication in children : an underdiagnosed complication ?
<b>D. Biondini</b>	Cholecystectomy in pediatric age: 9 years experience
<b>G. Fusi</b>	Robot-assisted Heller myotomy for achalasia
<b>G. Giannotti</b>	Management of cholecystocholedocholithiasis in pediatric age: experience at a Tertiary Care Center
<b>I. Draghici</b>	Laparoscopic Nissen fundoplication - the first choice to treat gastroesophageal reflux in a malnourished infant?
<b>L. Ali</b>	Fast track surgery in short segment Hirschsprung disease.
<b>L. Pio</b>	Neonatal trans-anal endorectal pull through (erpt) versus laparoscopic-assisted trans-anal pull through (latapt) after 28 days of life in recto-sigmoid hirschsprung disease: early outcomes.
<b>M. D. Popescu</b>	Crohn disease, open or laparoscopic appendectomy?
<b>N. Di Salvo</b>	Laparoscopic-assisted approach for intestinal duplications in infants: 15 years of experience in a single Center.
<b>P. Ledent</b>	Robotic reversal of open Hartmann's procedure for large bowel necrosis and perforation in a young girl: a case report.

<b>Session II 11.00-12.00 am</b> <b>THORAX</b> <i>Zaki A. (Egypt) - Romeo C. (ITA)</i>	
<b>A. Ganarin</b>	Thoracoscopy in congenital lung malformations: experience of a single centre
<b>A.S. Marinho</b>	Thoracoscopic esophageal atresia repair with “primary” anastomosis: systematic review
<b>A. Moga</b>	Thoracoscopic approach to mediastinal masses in the paediatric population
<b>A. Morandi</b>	Thoracoscopic resection of prenatally treated pulmonary sequestrations: report of two cases.
<b>D. Gobbi</b>	Video-assisted-thoracoscopic removal of retained intrathoracic pleuroamniotic shunts
<b>D. Patkowski</b>	The thoracoscopic approach for esophageal atresia and tracheoesophageal fistula – experience coming from 180 cases
<b>E. P. Etchepare</b>	5 mm optic with 3 mm working channel single-port for thoracoscopic sympathectomy for the treatment of primary palmar hyperhidrosis
<b>F. Destro</b>	Preliminary experience with the use of a new mis technology at two paediatric surgical centres
<b>F. Varlet</b>	Thoracoscopic treatment of pulmonary sequestration.
<b>J. De agustin</b>	Next step in oesophageal atresia surgery: orthotopic position of the oesophagus

<b>L. Pio</b>	Pulmonary function after thoracoscopic lobectomy for congenital pulmonary airway malformations:mid term outcome.
<b>A. Pini Prato</b>	Totally robotic transhiatal esophagectomy for causic burns in a 2 year old patient
<b>M.I. Conighi</b>	Congenital esophageal stenosis associated to esophageal atresia: how to treat? Case report and review of literature.
<b>M.I. Conighi</b>	Thoracoscopic resection of mediastinal cystic lesions: advantages of 3d technology.
<b>M. Lindeboom</b>	Thoracoscopic posterior tracheopexy during primary esophageal atresia repair
<b>N. Di salvo</b>	Predictive value of endoscopic stricture index on the need and number of dilatations in esophageal anastomotic strictures after esophageal atresia repair.
<b>S. Costanzo</b>	The use of new technologies in pediatric minimally invasive surgery: the other side of the coin. Attitude and strategies of the wise surgeon.
<b>V. Dotlačil</b>	Initial experiences with laparoscopic Heller's esophagocardiomyotomy
<b>Z. Dokumcu</b>	Routine screening for gastroesophageal reflux is not necessary prior to gastrostomy in neurologically impaired children
<b>Z. Mitupov</b>	Laparoscopic cardiomyotomy in children with achalasia
<b>Session III 3.00 – 4.00 pm</b> <b>MISCELLANEOUS</b>	

<i>Di Benedetto V. - Ashok Ram</i>	
<b>M. Escolino</b>	Technical standardization of MIS management of children with pilonidal sinus disease using pediatric endoscopic pilonidal treatment (Pepsit) and laser depilation
<b>L. Fourcade</b>	Middle term evaluation of the simulation model for laparoscopic pyloromyotomy
<b>A. Pini Prato</b>	Unicentric experience with epsit for pilonidal disease in pediatrics
<b>S. Silvaroli</b>	Video assisted sclerosis with ok432 of endoabdominal lymphangioma, an effective, safe and minimally invasive choice
<b>Valerie Soroutchan</b>	The value of laparoscopy in the treatment of blunt splenic trauma.
<b>A. D. Ram</b>	Laparoscopic management of shot gun injury to the abdomen in a child
<b>B. Fadgyas</b>	Congenital inguinal hernia treating by PIRS technique: evaluating the learning curve
<b>B. Tokar</b>	Objective structured assessment of technical skills for laparoscopic reconstructive surgery in pediatric surgery training programme
<b>B. Bogusz</b>	Laparoscopic hemisplenectomy with splenopexy for an enlarged wandering spleen
<b>B. Tander</b>	Laparoscopic adrenalectomy in a child with men 2a syndrome
<b>C. Noviello</b>	One trocar surgery: experience of a single center
<b>C. Carvalho</b>	What do parents think about laparoscopy? A portuguese online survey

<b>F. Beretta</b>	High demanding procedures in low-volume center. Our initial partnership experience
<b>F. Fascetti Leon</b>	Robotic assisted paediatric hepatic tumor resection. Case report.
<b>G. Lisi</b>	Inter-observer agreement on scar evaluation for uncomplicated appendicitis using a visual observer scale
<b>G. Spampinato</b>	Robotic enucleation of a solid pseudopapillary neoplasm in a 9-year-old girl
<b>H. Carter</b>	Star wars: simulation training allows realism without anguish, raising standards a simple cost effective model of a laparoscopic first stage orchidopexy and non-operative technical skills simulation
<b>K. Gizewska-kacprzak</b>	Wrist arthroscopy in children and adolescent - another field of the minimally invasive pediatric surgery
<b>L. Fourcade</b>	Creation of a virtual reality simulation device to teach safety in the practice of minimally invasive surgery in pediatric surgery.
<b>L. Pio</b>	Feasibility of laparoscopic resection of neuroblastomas in patients presenting selected positive idrfs.

## FRIDAY 13th SEPTEMBER 2019

<b>Session I 9.00-10.00 am</b> <b>UROLOGY AND MISCELLANEOUS</b>	
A. Halinski	Difficulties in Diagnosis and Treatment of Ureterolithiasis in Preschool Children and the Interest of URS-L for Treating this Age Group.
C. Bleve	Urothelial papilloma in pediatric age: management and follow-up. Experience in two Centers.
E. Wajszczuk	Stone street after ESWL - analysis of patients and ways of treatment.
F. Marinoni	A single center experience in the endoscopic treatment of urinary stone disease
L. Fourcade	Minimally invasive approach for bladder fibroepithelial polyp treatment
L. Avolio	Laparoscopic approach of giant mucinous borderline ovarian tumors: case reports and review of the literature
L. Avolio	Minimally invasive treatment of fallopian tube pathology in children: a single center experience
M. Escolino	Robot-assisted vs laparoscopic pyeloplasty in children with uretero-pelvic junction obstruction (upjo): results of a multicentric series.
