

In Memoriam - Dr. Sybill Storz

A few days ago, Dr. Sybill Storz passed away. In this difficult time, the European Society of Pediatric Endoscopic Surgeons (ESPES) wishes to express its deepest condolences to her entire family, in particular to Dr. Karl-Christian Storz, as well as to all employees of the company.

Dr. Sybill Storz dedicated herself in an exceptional way to the advancement of pediatric minimally invasive surgery. Under her visionary leadership, KARL STORZ became the world leader in the development of high-precision instruments tailored to the unique needs of children. The innovations introduced during her tenure enabled pediatric surgeons worldwide to perform increasingly complex procedures with safety, precision, and confidence, improving the lives of countless young patients.

We also wish to express our sincere gratitude for the constant support that KARL STORZ has always provided to ESPES throughout the years. This collaboration has played a fundamental role in advancing training, innovation, and excellence in pediatric endoscopic surgery.

ESPES is deeply grateful for her decades of tireless commitment, generosity, and unwavering belief in the future of pediatric endoscopic surgery. Her legacy will remain an enduring source of inspiration for our entire community.

Her memory will stay with us always.
