I'm a medicine student, then, this is all an amazing knowledge to my own professional construction.

My hospital does not have the means to perform most of the surgeries exposed in this Congresspeople

We don't do robotics and many procedures are through open and not minimally invasive approach

I didn't understand some presentations of the second session because of poor pronunciation. I think, it is necessary to assure, that lector could read and explain on english.

Its not my profesionales

Extremely usefull

All were good.

What was your overall impression of this event?

[Bar chart showing the distribution of ratings for Programme and Organisation]

- Programme:
  - Excellent: 100
  - Good: 50
  - Fairly good: 10

Can you provide ONE example how this event will influence your future practice?

88 responses

- New techniques
- Got to know new surgical techniques
- The basics have been very nicely reiterated.
- Clinical practice and diagnosis
- We will start performing PEPSIT
- Avoid smoke risks in MIS
- There is a lot of tips that I watch at videos that I am going to use in my personal practice
- Taking more chances with using minimally invasive and investing in courses for training in MIS
- I will try to implement more minimally invasive surgery in my practice

Commercial bias
Did all the faculty members provide their potential conflict of interest declaration with the sponsor(s) as a second slide of their presentation?

167 réponses

Can you provide an example of biased presentation in this activity?

42 réponses

- None
- no
- No
- none
- No.
- -
- None.

Presentations were so good in Pediatric laparoscopy and its eventual weakness of strength for Covid Patients.
Do you agree that the information was overall free of commercial and other bias?

167 réponses

- **Strongly agree**: 73.7%
- **Rather agree**: 23.4%
- **Rather disagree**: 0%
- **Strongly disagree**: 0%
- **Undecided / don’t know**: 0%
